SHORT RESUME

2025

Becoming a Wordpress Developer:Unlocking Power With Code - by Brad Schiff

LEAD · Udemy

Completed the Udemy course "Become a WordPress Developer: Unlocking Power With Code" by Brad Schiff, where I learned core web development skills including PHP, JavaScript, and WordPress theming. Gained hands-on experience building custom WordPress sites, creating themes, working with the WordPress REST API, and adding interactive features, demonstrating the ability to develop dynamic, code-driven WordPress solutions beyond standard templates.

2021-2022

Certified IT Infrastructure and Cyber SOC Analyst

LEAD · kozhikode

Proficient in network architecture design, firewall configuration, and intrusion detection systems. Adept at collaborating with cross-functional teams to develop and execute strategies for mitigating risks and enhancing overall security posture. Demonstrated ability to stay abreast of emerging technologies and industry best practices to continually adapt and optimize security measures.

2023-2024

Ultimate AWS Certified Solution Architect Associate SAA-C03

LEAD · Kozhikode

Proficient in architecting cloud-based applications and infrastructure that meet business objectives and compliance requirements. Skilled in optimizing AWS services to maximize performance and minimize operational costs. Experienced in collaborating with stakeholders to gather requirements, define architecture patterns, and drive successful implementation projects.

DEGREES

1710 **CIVIL ENGINEER**

CERTIFIED · AVIT

1715 **HIGHER SECONDARY**

SCHOOL · SILVER HILLS

CERTIFICATES & GRANTS

2015-2020 Civil Engineering

2022-2023 Certified IT Infrastructure and Cyber SOC Analyst
